C.I.T.B. CONSTRUCTION SKILLS REGISTERED

SECURITY SYSTEM BY TSD LTD

We have had a security system with CCTV and alarm installed at our business premises on an industrial estate. Andy the engineer was very efficient and knowledgeable.

We have a large warehouse and a lot of equipment stored so it was imperative that we had a quality system installed.

We are very happy with the finished product which is very easy to use and maintain. The installation was carried out very professionally and trouble free.

We would recommend TSD Ltd to both businesses and for private customers.
